SUMMARY

Innovative UI Developer with 2+ years of experience building performant, user-centric web applications using React and Next.js. Specializes in transforming complex workflows into intuitive interfaces with Tailwind CSS for rapid development. Passionate about bridging UI/UX best practices with clean, maintainable code to solve real-world problems. Thrives in collaborative, fast-paced environments where design and technology converge.

TECHNICAL SKILLS

Front-End: React, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Design Tools: Figma, Adobe Photoshop, Illustrator, After Effects

Version Control: Git

Soft Skills: UX Prototyping, Icon Design, Testing, Mentoring

WORK EXPERIENCE

UI Developer & UI UX Designer (Full-Time)

Chaavie Solutions / Calicut - June 2023 – Present

- Built a responsive admin dashboard and website using Tailwind CSS
- Created marketing assets (poster, icons) in Illustrator for client pitches, 3 of which clients adopted for rebranding campaigns
- Created 10+ website and app interfaces in Figma, from wireframes to high-fidelity prototypes, with 100% developer handoff accuracy
- Mentored 2 junior developers in UI Development and Designing
- Showcased features through 5+ animated explainer videos created in After Effects

UI Developer (Contract)

6solve / Tirunelveli - January 2025 – August 2025

(Contracted through Chaavie Solutions)

- Developed 8+ reusable React components, reducing UI development time by 25% for 6solve's SaaS platform
- Increased code quality by 30% through meticulous code reviews and collaborative problem-solving
- Collaborated with UX designers to implement Figma prototypes with 98% accuracy

UI Developer & UI UX Designer (Intern)

Futura Labs / Calicut – November 2022 - March 2023

- Built a responsive admin website using HTML CSS and Javascript
- Designed 8+ website and app interfaces in Figma, enhancing user engagement

EDUCATION

BSc Computer Science

Hi -Tech Art & Science College - Calicut University - 2016 - 2019

Higher Secondary (ComputerScience)

SIHSS-Ummathur- 2014 - 2016

PROJECTS

NVOCC Dashboard

UI Development (Next.Js)

- Coded 3 high-impact dashboards (Export/Import/Maintenance) using Next.js + Tailwind CSS
- Achieved 95% design-to-code accuracy and cut development time by 40% with reusable UI components

DOCTOR ONE Website & Admin Panel (React)

UI Development & UI/UX Design (React , Figma)

- Designed website UI in Figma and developed frontend with React
- Created 5+ admin dashboard interfaces in Figma and developed frontend with React
- Delivered Flutter mobile app UI designs in Figma
- Maintained 95% design-system consistency across all platforms

RENT MY THING App

UI/UX Design (Figma)

- Designed Flutter-based mobile app UI with 20+ interactive screens
- Designed Rent My Thing's logo and full visual identity (colors, icons, typography) in Illustrator

BLOOD App

UI/UX Design (Figma)

- Designed 10+ mobile screens in Figma (profiles, posting, chat)
- Built interactive prototypes demonstrating core user flows with 90% test success rate
